## CAREER

---

### LARAVEL DEVELOPER @ RYSK-IT BV

January 2023 - Present

(Tech stack: Laravel, JS)

- As a Senior Developer at RYSK-IT, I work on a variety of projects within the mass transport as a service (maas) sector.
- Drastically improved the performance and the user experience of the platform for taxi terminals in The Netherlands.

### FULL STACK DEVELOPER @ GOODSHAPE

August 2022 – March 2023

(Tech stack: Nette, Laravel, WordPress, JS)

- As a Full Stack Developer at GoodShape, I was working & dealing with various clients and their projects.
- Designing and developing front-end and back-end applications utilizing Nette framework, WordPress, or Node.js.
- In the end, I was managing & updating over 30 clients for the company.

### FULL STACK DEVELOPER @ AFFGADGETS

May 2014 – August 2022

(Tech stack: Node.js, WordPress, JS)

- As a Main Full Stack Developer at Affgadgets, I was responsible for creating the architecture and platform itself from scratch.
- Implemented many microservices and APIs for the automation of the platform utilizing Node.js.
- At Affgadgets I was also responsible for the SEO campaigns and overall marketing strategies of the platform.

## CONTRACTS

---

I also worked as a contractor for various interesting & complex projects such as the website for one of the biggest insurance companies in the Czech Republic.

You will be able to view my contractor portfolio at my website: [chymcakmilan.com](https://chymcakmilan.com)

## ABOUT ME

---

I am a full-stack web developer with over a decade of experience in building web applications, mostly through PHP. I have worked with a variety of technologies and frameworks, including React, Node.js, Laravel, Nette, and WordPress.

I have worked with a variety of clients, including startups, small businesses, and large corporations. I have worked on a variety of projects, including e-commerce, sass web apps, and traditional web presentation.
